AS INTERNATIONAL demand for Malaysian-made furniture rises, the Malaysian International Furniture Fair (MIFF) 2015 has provided the design industry with a front seat to drive exports.

MIFF holds an annual Furniture Design Competition (FDC) that targets the development and production of unique products.

The International Trade and Industry Ministry (MITI), and Malaysia External Trade Development Corporation (Matrade) are also helping the furniture companies to develop and promote our products overseas.

Deputy International Trade and Industry Minister Datuk Lee Chee Leong said he was confident that the MIFF FDC would act as an effective platform to cultivate young designers and encourage them to build a career in the furniture industry.

"Last year, Malaysian furniture exports rose to RM8bil.

Injecting new blood into the industry will encourage design innovation and inspire high value products and brands.

"Injecting new blood into the industry will encourage design innovation and inspire high value products and brands," he said.

The FDC was held on March 5 and designer Stephanie Ng Hui Sien won first prize out of a pool of 220 entries and 10 finalists.

She was awarded RM10,000, a trophy as well as a certificate for her design titled "Mick's Deck Chair", which was not only aesthetically pleasing but also practical and comfortable.

Her sleek design made from Malaysian Red Balau was prototyped by Supreme Tropical Furniture Sdn Bhd,

Supreme Tropical Furniture Sdn Bhd then went on to win the "Best Prototype Maker" category alongside Elk Furniture Industries for their joint efforts in manufacturing the "Infinity Lounge Chair" designed by Wan Nurhanis Farisa Aziman.

Other awards of note included the "Best Presentation Award" for booth creativity and product display as well as the "Furniture Excellence Award" for product innovation and quality.
