

Stephanie design

Multi- award winning industrial design studio offers a range of artisanal lighting solutions for residential and commercial applications, as well as bespoke design services in home decoration and design, lighting and furniture.

Using a combination of colour, form and texture, we love the play on unique materials to make the ordinary special. We apply traditional craftsmanship with accents of underlying cultural influences into our work.

Our signature is personal and hand-crafted, as opposed to a mass-manufactured feel to finished products; as portrayed through our product range.

Here at Stephanie Ng Design, we are committed to versatility and a design aesthetic that lasts and endures.

LUNA LANA

Luna Lana; meaning 'moon' and 'wool' in Spanish is a fitting moniker for our colourful knitted creations that this Collection brings. Soft woollen textures woven from 100% Merino wool into an intricate lampshade, wraps snugly around a frosted glass diffuser creating the illusion of a beanie fitted warmly around the moon.

Combine your favourite from our extensive selection of colours and styles to create your own creative expression. Adorn it to create a personalised rendition of your own.

Available in both Jumbo and Junior sizes, Luna Lana remains a firm favourite of those wanting to add a touch of whimsy to their retail space, restaurant or home.
